12. Applicant agrees to the following conditions:

- a. Applicant acknowledges reviewing applicable ICC-SRCC Rules of Procedure, and that the applicant shall be responsible for ensuring that products covered by this application conform with ICC-SRCC product listing or certification requirements. The applicant agrees that ICC-SRCC may, as necessary, subcontract for work related to the product listing or certification process; although the applicant retains the right to reject ICC-SRCC's use of any particular subcontractor. The applicant also agrees that, as may be required for the product evaluation and any follow-up surveillance activities, the applicant will make all necessary arrangements for examination of the applicant's documentation and records, and/or for ICC-SRCC access to the applicant's relevant locations, areas, equipment, personnel, and subcontractors. If requested by ICC-SRCC, the applicant will make arrangements for third-party observers, representing accreditation bodies, to be present during any given inspection of the manufacturing facilities producing products covered by this application.
- b. In consideration of the processing of this application, the applicant agrees to abide by any conditions attached to the approval of this application, the requirements of the applicable standards and codes, and the Rules of Procedure of the Solar Rating and Certification Corporation, as they now exist and as they may be reasonably modified in the future.
- c. The applicant agrees to make all necessary arrangements for ICC-SRCC to investigate complaints related to any product listing or certification requirements resulting from this application. The applicant also agrees to keep a record of all significant complaints made known to the applicant about the listed or certified product(s), and to make these records available to ICC-SRCC upon request. The applicant will take appropriate action with respect to such complaints, and document the actions taken.
- d. An ICC-SRCC listing or certification does not imply any guarantee or warranty (expressed or implied, and including but not limited to merchantability) by ICC-SRCC against defects or failures in service nor any responsibility in regard to patent or trademark infringement, misuse of trade name or trade secrets, or any other aspect of unfair competition. Affirmative actions of ICC-SRCC are based primarily on the data submitted by the applicant and/or listee and the validity and integrity thereof as implicitly represented by the applicant and/or listee in submitting the same. Applicant agrees that it shall have no cause of action or claim against ICC-SRCC or its parent corporation, the International Code Council, Inc., or the officers, directors, members and employees of either entity from time to time arising out of any listing issued pursuant to this application, whether or not such listing is subject to conditions, or out of any denial of this application. Applicant agrees to hold ICC-SRCC, its parent corporation, the International Code Council, Inc., or any of their affiliates, parent, brother or sister corporations or their successor-in-interest or assigns, and the officers, directors, members, and employees of such entities ("ICC" collectively throughout this paragraph) harmless, and to defend and indemnify them, with respect to any claim, liability, action or judgment arising from the use or operation by any person of the product or service to which the application relates, actual or asserted, whether related to the matters set forth in the first sentence of this paragraph or otherwise, whether for personal injury, wrongful death, property damage, or any type of injury or damage whatsoever, whether or not of the same kind or nature as any of the foregoing. ICC's rights pursuant to the foregoing sentence, and applicant's obligations there under, shall apply whether or not it is claimed that ICC was concurrently negligent with others, solely negligent, actively or passively negligent, and whether or not the legal theory of the claimant(s) is on one of the foregoing grounds or some other. California law shall apply to the interpretation hereof. If any part or portion of this paragraph, or any application thereof to particular facts, should be determined invalid, the provisions hereof shall be severable so as to achieve for ICC the maximum legal protection. If this application is for a renewal of an existing additional listing or certification, the provisions of this paragraph shall apply from the date of first granting of that listing, whether upon application or without application by applicant or a predecessor and regardless of: intervening modifications to said listing or modifications pursuant to application for renewal; any prior change in the number assigned to the listing; and any prior change in ownership rights in or rights to said listing, or any additional listing or certification included in the listing, whether one or more, since granting of said first additional listing or certification.
