

SOLAR RATING
& CERTIFICATION
CORPORATION™

SRCC can Provide ENERGY STAR® Listings for your existing SRCC OG-300 certified systems.

REQUIREMENTS for ELIGIBILITY OF APPLICATION FOR CERTIFICATION TO ENERGY STAR

REQUIREMENTS for ELIGIBILITY OF APPLICATION FOR CERTIFICATION TO ENERGY STAR:

1. The solar water heating system must have a current SRCC OG-300 Certification™
2. The applicant must be an active ENERGY STAR Manufacturing Partner in good standing.
3. The applicant must sign an ENERGY STAR® Certification and Listing Agreement for Solar Water Heater provided by SRCC™
4. The applicant must be in good financial standing with SRCC.
5. The SRCC OG-300 Certification must be under the Applicant's company name.
6. The Solar Energy Fraction (SEF) must be ≥ 1.8 with electric backup or ≥ 1.2 with gas backup, based on the system's SRCC certification.
1. All solar collectors used in the systems must be tested by an EPA recognized laboratory

Please note:

A system using oil for backup does not qualify for ENERGY STAR certification.

A commercial system does not qualify for ENERGY STAR certification.

Example: If your solar water heating systems sell in the state of New Jersey, ENERGY STAR® is Required!
