SOLAR RATING & CERTIFICATION CORPORATION

An ICC Evaluation Service Program

Solar Thermal Product Listing

No./SRCC-19003

Issued: June 19, 2019
Expiration Date: June 01, 2027

www.solar-rating.org | **(800) 423-6587** | **(562) 699-0543**

CSI:

DIVISION: 22 00 00 – PLUMBING
Section: 22 33 30.23 – SOLAR DOMESTIC WATER HEATER SYSTEMS

DIVISION: 23 00 00 – HEATING
Section: 23 56 13 – HEATING SOLAR COLLECTORS

PRODUCT LISTING PROGRAM:

The ICC-SRCC Solar Thermal Listing Program is conducted in accordance with the *ICC-SRCC Rules for Solar Heating & Cooling Product Listing Reports*. The program also includes periodic factory inspections and surveillance of the manufacturer's quality management system.

PRODUCTS: SOLAR THERMAL COLLECTOR

LISTEE:

Commercial Energy Savings Plus
2604 NW 53rd Drive
Boca Raton, FL 33496 USA

INSTALLATION:

The solar thermal collector must be installed in accordance with the manufacturer's published installation instruction, the applicable code(s) and this listing. Where differences exist, the instructions in this listing must govern. Where the product requires periodic examination, adjustment, service and or maintenance it must be easily and safely in accordance with the codes in force at the installation site and the manufacturer's published instructions.

Collectors and supports shall be installed in such a manner that water flowing off the collector will not damage the building or cause premature erosion of the roof. Collectors shall be installed in such a manner as to minimize the accumulation of debris. Ground-mounted collectors shall be at least 6" above ground level. Structural supports shall be selected and installed in such a manner that thermal expansion of the collector and piping will not cause damage to the collector, structural frame or building. Neither wind loading (including uplift) nor the additional weight of filled collectors shall exceed the live or dead load ratings of the building, roof, roof anchorage, foundation or soil. Collector supports shall not impose undue stresses on the collectors. The design load shall be as specified by the codes in force at the installation site and shall include an additional load due to snow accumulation for applicable locations.

CONDITIONS OF LISTING:

1. Devices and components shall be installed and used in accordance with the manufacturer's published installation instructions and the applicable code(s) and standard(s).
2. Systems shall be sized in accordance with the demand, manufacturer's requirement, and local codes.
3. System components requiring access for maintenance and inspection shall be installed to provide required access in accordance with manufacturer's instructions and local codes.
4. Solar thermal collectors shall be installed in accordance with the requirements of ISPSC Section 316.6, and 2606.12 of the 2018-IBC (and Section 3139B.1 of the CBC in CA), IgCC Section 607.3
5. Solar thermal collectors shall only be used with water per manufacturer's requirements.
6. Each installation must be pressure-tested for leaks in the presence of the code official or code official's designated representative.
7. Penetrations through fire-resistance-rated walls and roof decks shall comply with Section 712 of the 2018 IBC and Section 714 of the 2021 IBC.
8. Solar thermal components shall use approved mounting hardware in compliance with the manufacturer's installation instructions and the requirements set forth by the Authority Having Jurisdiction.
9. Solar thermal collectors shall be installed to prevent water intrusion into roof assemblies in accordance with the requirements of Section 1503.2 of the IBC.
10. Devices and components are manufactured by Commercial Energy Savings Plus under a quality control program with surveillance inspection every two years conducted in accordance with the requirements of ICC-SRCC.

IDENTIFICATION:

Models listed above are eligible to display the following listing mark as governed by the *ICC-SRCC Rules for Mark and Certificate Use*. Each device or component shall also be permanently marked with the following information as required by the codes and standards listed above.

ICC-SRCC LISTED ™

1. Manufacturer's name and model number.
2. Maximum operating pressure.
3. Compatible heat transfer fluids.

Listings are not to be construed as representing aesthetics or any other attributes not specifically addressed, nor are they to be construed as an endorsement of the subject of the listing or a recommendation for its use. There is no warranty by the Solar Rating and Certification Corporation, express or implied as to any finding or other matter in this listing, or as to any product covered by the listing. This document must be reproduced in its entirety.
